Forensic Science International, 57 (1992) 211–213
Elsevier Scientific Publishers Ireland Ltd.

SUBJECT INDEX
Volume 57 (1992)

acetaminophen, proproxyphene, poisoning, autopsy, redistribution, 147
activity staining, semen, deoxyribonuclease I (DNase I) polymorphism, isoelectric focusing, dried agarose gel film-overlay method, 39
age estimation, blood stains, HPLC, hemoglobins, 17
aggression, anxiety, employment, imprisonment, 81
albumin, IgG, monoclonal antibody, ELISA, buried, blood-stained cloth, 139
anxiety, aggression, employment, imprisonment, 81
atherosclerosis, sudden unexpected death, coronary heart disease, sudden coronary death, 129
autopsy, acetaminophen, proproxyphene, poisoning, redistribution, 147

batch variation, forensic ballistics, pellet distribution, shotshells, 175
biological stains, DNA-VNTR polymorphism, phosphatase-labelled oligonucleotide probes, chemiluminescence, 119
blood stains, age estimation, HPLC, hemoglobins, 17
blood-stained cloth, albumin, IgG, monoclonal antibody, ELISA, buried, 139
bone, radiostrontium, date of death, 51
breath alcohol analysis, retrograde extrapolation, 193
buried, albumin, IgG, monoclonal antibody, ELISA, blood-stained cloth, 139

cardiac metastasis, right atrium, sudden death, 169
chemiluminescence, DNA-VNTR polymorphism, phosphatase-labelled oligonucleotide probes, biological stains, 119
cocaethylene, hair analysis, cocaine, gas chromatography, 99
cocaine, hair analysis, cocaethylene, gas chromatography, 99
computer, discriminant function, lateral cranial form, sex determination, 109
coronary artery, dissecting intramural haematoma, sudden death, 157
coronary heart disease, sudden unexpected death, sudden coronary death, atherosclerosis, 129
criminalistics, glass, windows, fragmentation, 73
criminalistics, motor vehicle accident, PVC plastisol, particulate PVC, 91
criminalistics, paint, thin sections, transmitted light microscopy, forensic microscopy, discrimination power, 5
cyanoacrylate fuming, fluorescence, fingerprints, dye staining, 163

date of death, radiostrontium, bone, 51
deoxyribonuclease I (DNase I) polymorphism, semen, isoelectric focusing, activity staining, dried agarose gel film-overlay method, 39
discriminant function, computer, lateral cranial form, sex determination, 109
discrimination power, paint, thin sections, transmitted light microscopy, criminalistics, forensic microscopy, 5
dissecting intramural haematoma, coronary artery, sudden death, 157
DNA profiling, forensic casework, single locus probes, 29
DNA-VNTR polymorphism, phosphatase-labelled oligonucleotide probes, chemiluminescence, biological stains, 119
dried agarose gel film-overlay method, semen, deoxyribonuclease I (DNase I) polymorphism, isoelectric focusing, activity staining, 39
drug deaths, HIV-1-prevalence, multicenter study, HIV, epidemiology, 57
dye staining, fluorescence, fingerprints, cyanoacrylate fuming, 163

ELISA, albumin, IgG, monoclonal antibody, buried, blood-stained cloth, 139
employment, anxiety, aggression, imprisonment, 81
epidemiology, HIV-1-prevalence, drug deaths, multicenter study, HIV, 57

fingerprints, fluorescence, dye staining, cyanoacrylate fuming, 163

firearms, homicide, suicide, 181
fluorescence, fingerprints, dye staining, cyanoacrylate fuming, 163
forensic ballistics, pellet distribution, shotshells, batch variation, 175
forensic casework, DNA profiling, single locus probes, 29
forensic microscopy, paint, thin sections, transmitted light microscopy, criminalistics, discrimination power, 5
fragmentation, criminalistics, glass, windows, 73

gas chromatography, hair analysis, cocaine, cocaethylene, 99
glass, criminalistics, windows, fragmentation, 73

hair analysis, cocaine, cocaethylene, gas chromatography, 99
hemoglobins, blood stains, age estimation, HPLC, 17
historical, osteology, peine forte et dure, 63
HIV, HIV-1-prevalence, drug deaths, multicenter study, epidemiology, 57
HIV-1-prevalence, drug deaths, multicenter study, HIV, epidemiology, 57
homicide, firearms, suicide, 181
HPLC, blood stains, age estimation, hemoglobins, 17

IgG, albumin, monoclonal antibody, ELISA, buried, blood-stained cloth, 139
imprisonment, anxiety, aggression, employment, 81
isoelectric focusing, semen, deoxyribonuclease I (DNase I) polymorphism, activity staining, dried agarose gel film-overlay method, 39

lateral cranial form, computer, discriminant function, sex determination, 109

miliary tuberculosis, tuberculosis, tuberculous myocarditis, sudden death, sudden cardiac death, 45
monoclonal antibody, albumin, IgG, ELISA, buried, blood-stained cloth, 139
motor vehicle accident, criminalistics, PVC plastisol, particulate PVC, 91
multicenter study, HIV-1-prevalence, drug deaths, HIV, epidemiology, 57

osteology, historical, peine forte et dure, 63

paint, thin sections, transmitted light microscopy, criminalistics, forensic microscopy, discrimination power, 5
particulate PVC, criminalistics, motor vehicle accident, PVC plastisol, 91
peine forte et dure, osteology, historical, 63
pellet distribution, forensic ballistics, shotshells, batch variation, 175
phosphatase-labelled oligonucleotide probes, DNA-VNTR polymorphism, chemiluminescence, biological stains, 119
poisoning, acetaminophen, proproxyphene, autopsy, redistribution, 147
proproxyphene, acetaminophen, poisoning, autopsy, redistribution, 147
PVC plastisol, criminalistics, motor vehicle accident, particulate PVC, 91

radiostrontium, bone, date of death, 51
redistribution, acetaminophen, proproxyphene, poisoning, autopsy, 147
retrograde extrapolation, breath alcohol analysis, 193
right atrium, cardiac metastasis, sudden death, 169

semen, deoxyribonuclease I (DNase I) polymorphism, isoelectric focusing, activity staining, dried agarose gel film-overlay method, 39
sex determination, computer, discriminant function, lateral cranial form, 109
shotshells, forensic ballistics, pellet distribution, batch variation, 175
single locus probes, DNA profiling, forensic casework, 29
sudden cardiac death, tuberculosis, tuberculous myocarditis, miliary tuberculosis, sudden death, 45
sudden coronary death, sudden unexpected death, coronary heart disease, atherosclerosis, 129
sudden death, cardiac metastasis, right atrium, 169
sudden death, dissecting intramural haematoma, coronary artery, 157
sudden death, tuberculosis, tuberculous myocarditis, miliary tuberculosis, sudden cardiac death, 45
suden unexpected death, coronary heart disease, sudden coronary death, atherosclerosis, 129
suicide, firearms, homicide, 181

thin sections, paint, transmitted light microscopy, criminalistics, forensic microscopy, discrimination power, 5

transmitted light microscopy, paint, thin sections, criminalistics, forensic microscopy, discrimination power, 5
tuberculosis, tuberculous myocarditis, miliary tuberculosis, sudden death, sudden cardiac death, 45
tuberculous myocarditis, tuberculosis, miliary tuberculosis, sudden death, sudden cardiac death, 45

windows, criminalistics, glass, fragmentation, 73
